GENERAL INFORMATION

Our emphasis is on "THEME" training sessions that will be introduced to the players each day. Topics such as Defending, Attacking, Possession, Positional Play, and re-starts will be the focus of each day in addition to conditioning and skill development. The last hour of each daily session will be spent teaching tactical game situations to promote the players making decisions on their own. We provide a program that specializes in the soccer skill development of all positions, including Goalkeeping. Our philosophy is to promote many touches on the ball through the use of recreational games. Many of our coaches are educators as well as players and understand the physical and psychological development of the participants we work with.
