2010 Summer Camps

Not a school sponsored program

Community Camps

Our community camps are a fantastic way for players to learn and experience the game in a fun and creative environment. Each camp is age and ability appropriate and offers individual skill development through fun teaching games and exercises. Each week ends with a final World Cup day where players can showcase their skills while playing small-sided matches simulating the 2010 World Cup in South Africa. Creating a positive relationship and confidence with the ball, our community camps are a great option for your young soccer player!

Skills Camps

Our skills camps encourage players to be comfortable and confident with the ball at their feet. Each of our skills camps is open to experienced travel, club and high school players striving to become more creative and competent on the ball. Coaches will push players past their comfort zone from day to day and encourage players to take risks in small sided scrimmage play. This year we will offer skills camps such as our *Finishing & Goal Keeper School, Futsal Training, Passing & First Touch, High School Preseason, Jr. Academy Prep* and even our *Training Academy – SUSC's premier camp of the summer.*

Field Hockey & Lacrosse Summer Camps

Seacoast United also offers various camps for field hockey and lacrosse players. During the summer various levels of camps are offered from the club and high school level to the 'first timers'. Each camp is age and ability appropriate while combining fun aspects of the game with necessary skills to improve and grow as a player. Please look at our online summer schedule to see what is available for your player.
