RE: Exterior Painting (Town Hall Front and Back Side)

I hereby propose to prepare and paint the front and back gable ends of the Deerfield Town Hall located on Church Street in Deerfield, NH.

Work to be completed will proceed in the following manner. Any loose and peeling paint will be scraped and sanded and all holes, seams and gaps will be caulked in order to prevent water penetration. Bare wood will be spot primed with an oil primer in order to prevent bleed through. Two coats of 100% acrylic latex paint will be sprayed and back brushed to insure uniform coat coverage.

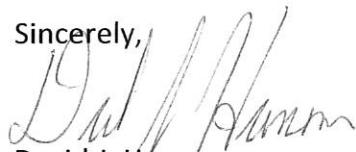

This proposal includes prepping and painting the shutters in the same manner as the body and trim. Window trim is included as well, however, the windows themselves are not included in this proposal.

Materials are included in this proposal and shall be of high quality. We will be renting a lift in order to safely ensure the highest areas are completed in a thorough manner. The cost of the lift has been factored into this proposal.

All work will be completed in a professional, workman like manner for the sum of;

\$11,000.00.

Sincerely,

David J. Hanson
