Gloria Riel, Diana Allard and Harriet E. Cady met at 1 PM to finish putting the status of the 30 day letters to rest. Mrs. Joanna Wareing came in to show domicile after receiving the 30 day letter and status was put back to voter. She got to see some of the operations while here and had explanation of what may have happened when property cards were used to establish why some voters still residents might have received a 30 day letter. to claim residency and prove such. Harriet explained what may have happened when property cards were used to establish why some voters still residents might have received a letter and it was a trust with his name firsts she stated her husband's name was different than hers on the trust. While here we checked file and had her do a new registration card. Out of over 250 letters sent only ten persons came in to still claim residency.

The checklist still needs to find a way to know who is still in town and who has left town.

Upon redoing filing and work the Supervisors voted to remove another 151 names from checklist and remove notification of 30 day list. It was voted to remove two for reason of death.

It was also voted to add voters and fix changes.

Respectfully submitted
